

# The Almost Heaven Star Party is (Almost) Here!

From June 2nd through the 5th, discriminating observers and imagers can have access to some of the darkest skies on the east coast in some of the most beautiful country anywhere.

Don't miss the first annual *Almost Heaven Star Party*, hosted by The Northern Virginia Astronomy Club (NOVAC) and the Virginia Outdoor Lighting Taskforce (VOLT) in *beautiful, dark Spruce Knob*, West Virginia. The Mountain Institute will be the backdrop for three nights under the darkest skies east of the Mississippi, while attendees will have access to amenities not often found at a Star Party.

Your \$50 registration fee gives you access to camping, *hot showers, indoor restrooms*, (limited) internet access, entertaining daytime programs and presentations, solar observing sessions, and much more. And for an additional fee, we'll serve you *three meals a day*.

Make sure you *register online today* to reserve your spot! See you in June.

**When:** June 2nd, 11 am – June 5th, noon

**Where:** The Mountain Institute,  
Spruce Knob, West Virginia

**Cost:** \$50 registration fee (*includes camping and access to amenities*)

\$25 per day for three meals

Half-price for children under 12,  
and free for children under 6
